GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Residential Burn Cathedral City, Riverside County (Final)

Current:

- Sixty-eight impacted residents were evacuated at 1500 hours, 06/27/14. As of 1000 hours, 06/28/14, the mobile home park was cleared for repopulation.
- Per the Cal OES SDO, Local Disaster Proclamation from Cathedral City via Riverside County remains forthcoming.

Situation:

- The Cathedral City Fire Department, along with Federal and State Fire agencies, began burning down a residence in Cathedral City, 06/27/14; the residence was determined to contain bomb making materials.
- As of 0030 hours, 06/28/14- Cathedral City Fire Department, along with Federal and State Fire Agencies conducted a successful firing operation, which consumed the mobile home that contain bomb making chemicals.
- The residence was located in the Cathedral City Sungate Mobile Home Park (previously reported as Desert Gates Estates).

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA:

High pressure will build over northern California this weekend. By tomorrow afternoon temperatures will be 5-7 degrees above normal and relative humidity will drop to the 8-16% range in inland areas. These conditions will be enhanced from the lower western Sierra slopes to the coastal mountains by North to northeast winds gusting to 25 mph. This trend, including the north to northeast downslope winds in and around the Sacramento valley, will continue through Tuesday. A Pacific low pressure trough will approach the region beginning late Tuesday. The trough will produce cooler temperatures and increasing south to southwest winds. There is a slight chance of afternoon thunderstorms in far Northern and Northwestern California Tuesday and Wednesday. Also areas along and east of the Cascade-Sierra Crest will see winds gusting 25-30 mph with relative humidity in the 6-12% range Wednesday through Friday.

SOUTHERN CALIFORNIA:

Temperatures will warm and humidity will lower a little each day through Tuesday as a ridge of high pressure builds into California from the Pacific Ocean. By Tuesday, temperatures will be in the 80s to low 90s across the mountains and mid 90s to 105 in the valleys along with minimum humidity between 8% and 15%. There will be little change in temperature or humidity across the region Wednesday through the end of next week as the ridge remains overhead. There will be a normal sea breeze pushing inland each afternoon through the end of next week. The marine layer will gradually shrink and become confined to the coastal areas by Tuesday.

SITUATION SUMMARY

Significant Weather

- High pressure over the west coast will bring very warm temperatures this weekend. Even warmer temperatures are expected early next week as the high amplifies. By Monday and Tuesday, temperatures will run anywhere from 5 to 15 degrees above normal although at this time, record high temperatures are not expected. A slight threat of thunderstorms exists over the northern mountains on Tuesday as a weak weather system pivots through the northwest corner of the state.
- With summers arrival, though the state remains in the Phase I Alert condition of Seasonal Readiness, as outlined in the State Contingency Plan for Excessive Heat Emergency, State Agencies/Departments are advised to review existing plans, procedures and resources, to facilitate preparedness for and response to possible excessive heat events, and closely monitor the situation and inform Cal OES of any heat related issues or concerns.
- The California State Warning Center continues to monitor the weather statewide for heat or fire weather of concern and state power grid issues, and Cal OES Regions will remain in contact with Operational Areas (Counties) to monitor heat events which may impact local communities, facilities or agencies.

Link to NWS Experimental Heat Impact Levels Interactive Map: <http://www.wrh.noaa.gov/sto/heat/>

Short/Sharp Hot Spell Ahead

- Temperatures peak Mon./Tue.
- Limit outdoor activities during hottest part of the day (2 pm-6 pm).
- Stay hydrated with plenty of water.
- Isolated T-Storm possible higher Mtn. regions on Tuesday.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

****As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-3961**, On behalf of Fairfield Police Department, Solano County Sheriff is requesting one Human Remains Detection (HRD) K9 to assist in a 30 year cold case homicide. The Cal OES Law Duty Officer is coordinating resources.
- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
